

Profile

Eager junior front-end developer with freelance exposure, adept in React.js, Next.js, Tailwind, Node.js, Context API and Express.js. While I lack formal experience, I possess a firm grasp of CRUD operations and API integration. Focused on enhancing user experiences, I'm a collaborative communicator keen to leverage my skills and learn in a professional environment.

Experience

Full Stack Instructor - Google Developer Students Club

January 2024 – now

I'm a Full Stack Instructor in GDSC at MET, my job is teaching and give training in the web development for new Computer science students, I'm teaching the new Technologies (MERN Stack).
